Customized, Cost-Efficient Comfort

YORK® MINI-SPLIT SYSTEMS

YORK® MINI-SPLIT SYSTEMS

SMART SOLUTIONS FOR RESIDENTIAL AND LIGHT COMMERCIAL APPLICATIONS

Grow your business and solve more customer challenges with YORK Mini-Split Systems. YORK ductless systems deliver just the right amount of heating and cooling to every space while using no more energy than necessary.

YORK Mini-Split Systems are the ideal choice for applications that challenge traditional HVAC systems such as projects with varied loads and occupancy rates or cases where existing systems can't be modified to reasonably meet customer needs.

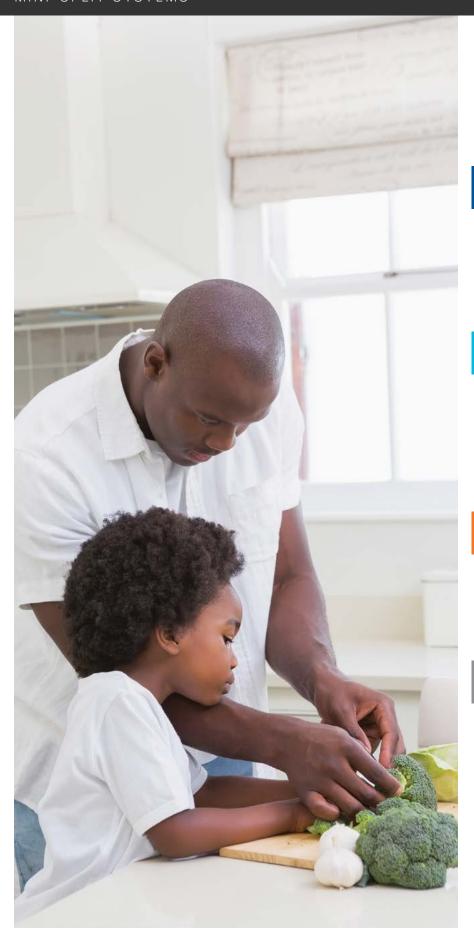

A wide portfolio of equipment means YORK Mini-Split Systems can be customized to meet the exact needs of your customers. With all of these advantages, isn't it time you brought the benefits of YORK Mini-Split Systems home to your customers?

Benefits include:

- Energy efficiency that traditional HVAC systems can't match
 - High-efficiency, inverterdriven compressor modulates capacity to meet temperature requirements exactly
 - Energy-saving mode automatically selects optimal fan speed to reduce energy consumption
- Exceptional comfort
- Unique temperature-sensing capability monitors room temperature at remote controller instead of indoor unit and adjusts airflow and temperature accordingly
- Indoor fan automatically adjusts speed for maximum comfort
- Pre-heating system ensures indoor fan doesn't run until coil has warmed to prevent cool air from circulating when in heating mode
- · Remarkably quiet operation
 - sound pressure levels as low as 23 dB(A)

The information contained in this catalog is for illustration purposes only and is subject to change at the sole discretion of Johnson Controls. Statements, figures, calculations, plans, images and representations are only examples. Johnson Controls encourages you, as the purchaser, to analyze your HVAC requirements and to work with Johnson Controls to determine the exact mini-split system to fulfill your needs.

MINI-SPLIT SYSTEMS FOR CONTINUOUS COMFORT AND EFFICIENCY

RESIDENTIAL AND LIGHT COMMERCIAL APPLICATIONS

YORK® Mini-Split Systems suit a wide range of residential and commercial applications including:

Room additions

A practical and economical solution compared to upgrading existing systems.

Apartments, condominiums, and townhouses

An ideal solution compared to the hassle, noise, obstructed view, and other issues associated with typical window units.

Older houses where ducts are not available

A smart, effective way to add air conditioning that does not require extensive construction or remodeling.

Buildings with remote or separated offices

Perfect for supermarket administrative offices, manufacturing supervisor offices, parking lot structures and mobile offices at construction sites.

Small business applications

For convenience stores, fast-food restaurants, coffee shops, daycare centers and the like.

Extra and back-up cooling

For areas that are mission-critical or areas where cooling demand cannot be met with existing systems.

Electrical and IT closets

Ideal solution to add extra cooling to spaces with heat-generating equipment.

Wineries or small areas with stringent heating or cooling requirements

An economical and easy-to-install solution for businesses with the need for tight temperature control.

In the HVAC world, ductless mini-split systems are known for their higher efficiency and ability to set individual room temperatures. YORK Mini-Split Systems achieve high efficiencies by modulating the flow of refrigerant according to the exact demands of individual areas with innovative inverter-driven compressor technology.

YORK MINI-SPLIT SYSTEMS:

• Save energy. Ductless mini-split systems essentially eliminate the energy loss that occurs in conventional, ducted central systems which may account for as much as 30% of energy consumption. In addition, the variable-speed compressors in outdoor units provide extremely high part-load efficiency, making YORK Mini-Split Systems an excellent choice for energy-conscious customers.

- Are highly flexible. A selection of heating and cooling or cooling-only system options are available to meet the application's exact capacity and SEER requirements.
- Provide quiet, customized comfort. Indoor units operate quietly to meet individual temperature set points for each

- zone. Variable-speed compressors with wide capacity and precise modulation help maintain the temperature within a narrow range.
- Offer precise control. Indoor units are offered with a variety of control options ranging from on/off, set point, load and speed settings to programmable units that enable scheduling. Programmable temperature control by occupancy and schedule offers opportunities for increased savings.

GET EXPERT ADVICE AT EVERY STEP: SELECT, DESIGN, INSTALL

Industry certified

YORK Mini-Split Systems are Intertek ETL Listed (Canada & USA), signifying that they comply with the standard of Heating and Cooling Equipment (ANSI/UL 1995 and CAN/CSA C22.2 No. 236-11, 4th Edition, October 14, 2011). The systems are also certified by the Air Conditioning, Heating & Refrigeration Institute.

Effective training, intuitive design and selection software, advanced logistics and delivery, and easily accessible documentation form a powerful support package that adds substantial value to YORK® Mini-Split Systems.

Training to get your team up to speed fast

Efficient performance, quality installations

Comprehensive installation and startup classes provide the skills necessary to effectively and efficiently install YORK Mini-Split Systems.

Our training centers, located in Dallas, Texas and Shrewsbury, Pennsylvania include a laboratory with multiple mini-split systems to provide hands-on experience with components and controls.

Videos and webinars supplement classroom learning on specific subjects that refresh and enhance the skills of your sales, design, installation and service teams. YORK ductless mini-split system training helps deliver the peace of mind that your staff is prepared to support your business with the knowledge to compete in a growing industry.

DEDICATED WAREHOUSE AND LOGISTICS EXPERTISE ENSURE CONSISTENT DELIVERY

Get the right equipment to the job site on time

Ample inventory and advanced order management and logistics systems can help you complete installations in a timely manner. Our state-of-the-art main distribution center is located in Memphis, Tennessee where UPS and FedEx have hubs.

This enables us to provide fast, accurate deliveries and simplifies expedited shipments. Consistent service and predictable deliveries help you prevent delays and enable you to set a project timeline and schedule labor efficiently.

GET EXPERT ADVICE AT EVERY STEP: SELECT, DESIGN, INSTALL

INTEGRATED SOFTWARE TOOLS THAT GIVE YOU AN EDGE AND SAVE TIME

Intuitive selection software makes selection easy and seamless

The YORK® Mini-Split System Selection Software intuitively guides you step-by-step through equipment selection, so you can quickly and accurately choose the right system for each project.

Web-based program

The online program allows access from any computer or tablet. The software's intuitively designed features and functionality enable you to:

- Select options and accessories quickly, easily and accurately without the need for additional information or calculations.
- Gain an edge by confidently and easily designing mini-split systems.
- Work efficiently by providing quick access to accurate product information.

We have you covered with factory-backed, industry-leading warranties

Enjoy the best protection in the industry with our factory-backed warranties. In addition to the standard 7-year limited compressor and 5-year limited parts warranty, we offer an enhanced warranty that provides protection for 10 years.

Simply register the system on HVACNavigator.com for an automatic upgrade to a 10-year parts and 10-year compressor warranty. And enjoy unparalleled support with our 10-year labor plans.

Standard: 7 year compressor / 5 year parts

10 year compressor / 10 year parts Requires online registration. Available for installations in residential applications at no additional cost.

Extended Warranty with Labor:

10 year compressor / 10 year parts / 10 year labor Requires online registration and purchase of warranty upgrade. Available for installations in residential applications.

MINI-SPLIT SINGLE-ZONE SYSTEMS

YORK® mini-split single-zone systems are designed to address heating and cooling needs of single-zone interior spaces. These one-to-one systems include an outdoor unit matched with an indoor unit. Together they provide a compact, effective solution for any home or light commercial space at an affordable price.

115 & 208/230V 9K-24K BTU/h INVERTER HEAT PUMP & WALL-MOUNT UNITS

The high-efficiency Inverter Heat Pump is solidly built for years of dependable, energy-saving service. The Wall-Mount Unit is aesthetically pleasing and minimalistic, blending well with any decor. And the convenient control center allows complete control of temperature, operation, fan speed, airflow direction and more.

Key Features:

- High-efficiency inverter technology
- · Heavy gauge steel frame construction
- · Quiet operation
- · Room temperature displayed on Wall-Mount Unit
- Corrosion-resistant coating
- Provides energy savings by defrosting as needed, thus reducing energy consumption

208/230V 18K-48K BTU/h INVERTER HEAT PUMP

Powered by an energy-efficient inverter and variable-speed compressor, the ductless Inverter Heat Pump saves energy, reduces outdoor noise and maintains room temperature by eliminating the harsh starts and stops of conventional systems.

Key Features

- Range of capacities to suit any space
- · Low ambient cooling down to 0° F
- Multiple indoor unit options
- Multipoint diagnostics
- · Heavy gauge steel cabinet
- · Sound levels as low as 56 dB

4-WAY CEILING CASSETTE UNIT

Our 4-Way Ceiling Cassette Unit provides quiet performance through innovative design. Cassettes are easily installed in suspended ceilings, distributing conditioned air evenly throughout the room from a discreet discharge grille. The Ceiling Cassette Unit is a suitable choice for any room with a suspended ceiling.

Standard

Wireless Remote Controller MODEL DRCR

Key Features

- Multi-speed fan
- · Infrared remote control
- · Internal condensate drain pump
- · Remote control lockout
- Swing louver
- · Cleanable air filter
- 4-way air discharge
- Wired controller (optional)

DUCTED UNIT

Compact and powerful, the concealed Ducted Unit offers exceptional flexibility and discretion. Concealed above suspended ceilings or in open closet spaces, it delivers conditioned air through ducting and ceiling or wall grilles, providing immense flexibility in air distribution and choice of grille or diffuser.

Key Features

- · Medium static pressure capability
- · Internal condensate drain pump
- Easy to operate

Standard Wired Zone Controller MODEL DWCR

FLOOR / CEILING UNIT

The convertible Floor/Ceiling Unit is designed to be suspended from a ceiling or mounted low on a wall in areas where wall space is limited. Aesthetically pleasing, it is a great fit beneath windows. Units can be operated by infrared remote control or wired controller for maximum flexibility.

Key Features

- 4-way air discharge
- Multi-speed fan
- · Infrared remote control
- Swing louver
- · Remote control lockout
- Wired controller (optional)

MULTI-ZONE SYSTEMS

Multi-zone systems are designed to provide comfort, uncompromising personal style, and quiet operation to multiple spaces. Choose the indoor unit and capacity for each room and then select the appropriate system from the matching outdoor/indoor unit combinations chart.

The new S Series is a multi-zone system designed expressly to meet the demands of cold weather climates.

M SERIES MULTI-ZONE SYSTEM OUTDOOR UNITS

208/230V 18K-42K BTU/h INVERTER HEAT PUMP UNITS

The Mini-Split Inverter Heat Pump provides both cooling and heating comfort. Advanced technology delivers energy savings and comfort while design provides maximum flexibility in placement and product choice.

Key Features

- Heavy gauge steel cabinet
- · Sound levels as low as 56 dB
- Indoor main / secondary settings
- Multi-point diagnostics
- · Multi-condensate ports

W SERIES MULTI-ZONE SYSTEM OUTDOOR UNITS

208/230V 18K-42K BTU/h INVERTER HEAT PUMP UNITS

The Mini-Split Inverter Heat Pump provides both cooling and heating comfort. Advanced technology delivers energy savings and comfort while design provides maximum flexibility in placement and product choice.

Key Features

- High efficiency (up to 22 SEER)
- Low ambient cooling down to 0°F
- Low ambient heating down to -4°F
- Heavy gauge steel cabinet
- · Sound levels as low as 56dB
- Indoor main / secondary settings
- Multi-point diagnostics

M SERIES MULTI-ZONE SYSTEM INDOOR UNITS

WALL-MOUNT UNIT

The Multi-Zone Wall-Mount Unit features a compact design that requires very little wall space, yet it is powerful enough to provide comfort year-round. This whisper-quiet unit can be operated using a remote control or wired controller.

Key Features

- Four fan speeds
- · Infrared remote controller
- Turbo mode
- Comfortable sleep mode
- Wired controller (optional)

M, W AND S SERIES MULTI-ZONE SYSTEM INDOOR UNITS

4-WAY CEILING CASSETTE UNIT

The 4-Way Ceiling Cassette Unit quietly distributes conditioned air throughout rooms or large, open spaces. It can be easily installed in suspended ceilings and is covered with a discreet decorative discharge grille.

Key Features

- 4-way air discharge
- Multi-speed fan
- Remote control lockout
- Swing louver
- · Internal condensate drain pump
- Wired controller (optional)

CONTROLS & ACCESSORIES

YORK® Mini-Split Systems offer both wired and wireless controls to suit multiple applications.

Wired Central Controllers	36
Wired Zone Controllers	36
Wireless Controllers	37
Gateway Controllers	37
Controller Feature Comparison Chart	38
Accessories	40

INDOOR SERIES CONTROLS WIRED CENTRAL CONTROLLERS

MODEL DCCRMW

(Indoor Units for Multi-Zones and R Series)

This controller is designed for multi-zone systems as well as the R Series single-zone system. It can be used to view and control:

- · Current operating mode
- · Fan speed
- Set and actual temperature
- Timer

MODEL DCCUNI

(P, P New Generation, R, X, Indoor Units for Multi-Zones)

Control up to 36 indoor units with this touch-screen central controller:

- Intuitive user interface
- Multiple features for simple system control
- Large icons for easy operation
- Universal controller

WIRED ZONE CONTROLLERS

These controllers provide an intuitive user interface through which system settings can be precisely controlled.

MODEL DWCMW

(Indoor Units for Multi-Zones)

This unit provides precise control over system functions including:

- Temperature
- · Current operating mode
- Timer
- Louver position
- · Quiet mode
- Turbo fan to quickly bring room(s) to desired temperature
- Programmed temperature control
- Energy-saving mode

MODEL DWCPX2*

(P and X Series)

This unit enables control of multiple functions including:

- Temperature
- Current operating mode
- Timer
- Louver position
- Turbo fan to quickly bring room(s) to desired temperature
- Programmed temperature control
- * And DHY Wall mount units for multi zone applications

MODEL DWUNI

(P, P New Generation, Indoor Units for Multi-Zones)

Designed for both single- and multi-zone mini-split systems, this wired central controller features:

- Programmable and multi-function control
- Louver position
- Timer

- Energy-saving mode
- · Quiet mode
- Turbo fan

MODEL DWCR2

(R Series)

This unit provides the greatest level of control over multiple functions including advanced modes such as:

- Vacation mode
- 7-day schedule;8 events per day
- Operational lock function: on/off; mode, fan speed & set point

MODEL DWCR

(R Series)

This optional controller for the R series provides control over multiple functions including:

- Temperature
- Keycard control
- · Vacation mode

INDOOR SERIES CONTROLS WIRELESS REMOTE CONTROLLERS

Wireless units put control in your hands with handheld controllers that are easy to use.

These units provide precise control over system functions including:

- Temperature
- Current operating mode
- Timer
- Louver position
- Turbo fan to quickly bring room(s) to desired temperature
- Programmed temperature control
- Energy-saving mode
- · Ouiet mode

MODEL DRCMW

Comes standard with Ducted, Cassette, Floor Indoor Units for Multi-Zones

MODEL DRCR

Comes standard with R Series.

MODEL DRCPX

Comes standard with P Series, P Series New Generation, X Series.

EWPE SMART APP

Easily control settings from your smartphone or tablet with the EWPE Smart App available on Google Play or in the App Store. Available for P, P New Generation, and X series. Adapter CS532AH required for P and X.

GATEWAYS

Gateways provide advanced levels of control through integration with YORK VRF Systems and building automation systems.

H-LINK GATEWAY MODEL DCAHLA

(P, P New Generation, X Series, Indoor Units for Multi-Zones)

The game-changing H-Link Gateway integrates YORK® Mini-Split Systems with YORK VRF Systems. This advanced device enables mini-split equipment to be controlled through VRF Central Controllers or building automation systems via the VRF Smart Gateway for absolute control.

WIRED BACNET GATEWAY MODEL DCABAS

(P, P New Generation, R, X Series, Indoor Units for Multi-Zones)

The Wired BACnet Gateway integrates YORK® Mini-Split Systems Series P, R, X, M, W and S with all major building automation systems for easy management of mini-split systems. Monitor and control up to 48 indoor units with this powerful unit.

ACCESSORIES

MOUNTING ACCESSORY				
PART NUMBER	DESCRIPTION			
DL87733	BRACKET, WALL, MINISPLIT, 300-LB			
DL87743	BRACKET, WALL, MINISPLIT, 176-LB			

	CONDENSATE HANDLING
PART NUMBER	DESCRIPTION
DPWM-83819	ASPEN MINI AQUA / UP TO 30K BTUS 100V-250V

FILTER OPTIONS		
PART NUMBER	DESCRIPTION	
DL111220081	PHOTOCATALYTIC FILTER (P, P NEW GENERATION, X SERIES MODELS)	
DL1112220401	PHOTOCATALYTIC FILTER (P, P NEW GENERATION, X SERIES MODELS)	
DL11122007	PHOTOCATALYTIC FILTER (P, P NEW GENERATION, X SERIES MODELS)	
DL11012025	ACTIVE CARBON FILTER (P, P NEW GENERATION, X SERIES MODELS)	
DL11012422	ACTIVE CARBON FILTER (P, P NEW GENERATION, X SERIES MODELS)	

HOLDER OPTIONS		
PART NUMBER	DESCRIPTION	
HDRCPX	WIRELESS REMOTE CONTROL HOLDER FOR P, P SERIES NEW GENERATION, X SERIES	
HDRCR	WIRELESS REMOTE CONTROL HOLDER FOR R SERIES	
HDRCMW	WIRELESS REMOTE CONTROL HOLDER FOR INDOOR UNITS FOR MULTI-ZONES	

INTERCONNECT CABLE		
PART NUMBER	DESCRIPTION	
DL87795	INTERCONNECT CABLE 14/4 AWG CLASS B 50'	
DL87790	INTERCONNECT CABLE 14/4 AWG CLASS B 100'	

DRAIN HOSE		
PART NUMBER	DESCRIPTION	
DL83003	5/8" DRAIN HOSE 20' STANDARD	
DL83011	1/2" DRAIN HOSE 65' INSULATED	
DL83013	1" DRAIN HOSE 65' INSULATED	

NOTES				

http://www.york.com/ for-your-home/mini-split-systems

Standard:

7 year compressor / 5 year parts

Extended Warranty:

10 year compressor / 10 year parts Requires registration on HVACNavigator.com. Available for installations in residential applications at no additional cost.

Extended Warranty with Labor:

10 year compressor / 10 year parts / 10 year labor

Requires registration on HVACNavigator.com and purchase of warranty upgrade. Available for installations in residential applications.

Industry certified

YORK® Mini-Split Systems are Intertek ETL Listed (Canada & USA), signifying that they comply with the standard of Heating and Cooling Equipment (ANSI/UL 1995 and CAN/CSA C22.2 No. 236-11, 4th Edition, October 14, 2011). The systems are also certified by the Air Conditioning, Heating & Refrigeration Institute.
